The 38th President began his rapid rise to the nation's highest office in 1973, when Richard Nixon picked him to replace Spiro Agnew as Vice President. Bribery charges forced Agnew to resign. But it was the largest political scandal in American history, Watergate that thrust Ford to center stage. Eight months after replacing Agnew, Ford took the oath of office, replace President Richard Nixon who resigned in disgrace. Ford was born Leslie King in Omaha, Nebraska, July 14th, 1913. Ford was a football player at the University of Michigan, a football coach at Yale and a naval officer in the Pacific in World War II. He married Betty Bloomer in 1948. That same year he was elected to Congress as a conservative republican, and eventually became house minority leader in 1965. His tenure in the oval office was brief, and was punctuated by questions about his decision to pardon Richard Nixon. President Ford eventually was called before congress where he denied making any deals promising the disgraced President leniency. I want to assure you there was no

deal period. After leaving office he returned to the quiet life of civilian. Making speeches and enjoying summers on the golf course, and winters on the slopes. At the 2000 Republican Convention he suffered a series of small strokes and was hospitalized briefly. Although he seemed to recover completely, the episode raised serious concerns about his overall health. Although Americans never embraced Gerald Ford as President, most seemed to admire him.. He will be best remembered as the man who cautiously steered the nation through the difficult post Watergate years. Produced by Ted Marschall. Broadcast date: 12/27/06 in the 5am newscast. Department of labor studies show the majority of minimum wage workers in southern Nevada are under the age of 25 and most are women and are usually employed in entry level service jobs. The question would change the state constitution and starting in 2008 would automatically raise the minimum wage up to 3T per year based on national cost of living increases. Some consumers who are also Nevada voters say that thought scares them. Produced by Adrienne Carr. Broadcast date: 10/22/06 in the 5pm newscast. (2:20 minutes)
